

## ***Meet the OLYMPION Group***

### **The “OLYMPION” General Clinic**

In the newly built facilities of the “OLYMPION” Private General Clinic of Patra, fully equipped Clinics and Outpatient Department of all medical specialties, have been operating since 2005. It is the largest and best equipped private healthcare facility in the area of Western Greece.

The “OLYMPION’s” mission is to ensure its’ patients’ health improvement and thus, provide them with a better quality of life.

*This is why the OLYMPION:*

- **Invests** in new technologies and techniques, based on internationally recognized standards and practices.
- **Promotes** the continuous education and training of the medical and nursing staff, as well as their direct associates.
- **Places** the patient’s need for a safe, efficient and quality treatment as its main priority.

The experienced and highly qualified medical, nursing and administrative staff and the application of innovative diagnostic and treatment methods, have made the OLYMPION facilities stand out, not only in the private Greek healthcare sector but also abroad. With a wide range of specialized doctors available around the clock and state-of-the-art medical equipment, it is possible to quickly determine the type of medical attention needed for each patient. Immediate treatment is provided for every condition in order to ensure fast recovery, allowing the patients to return to their usual activities or their holiday, as soon as possible.

The **International Patients team** is always available and ready to provide information and support with administrative issues, before, after and through-out the hospitalization, to patients from around the world. With multilingual staff and Agreements with all the well-known International Insurance and Assistance Companies, at the OLYMPION facilities, it is possible to handle all administrative issues on behalf of the patients, allowing them to focus completely on their treatment.

**Medical tourism** is also supported by the **International Patients Services Department**. Patients seeking medical treatment in Greece, can contact the OLYMPION facilities 24/7, and have access to the highest quality healthcare, at all stages of their treatment. Pre-travel support and communication, coordination of medical treatment and administrative issues, post treatment follow-up, are offered by the OLYMPION IPS team.

At the OLYMPION facilities, the patients feel “like home” from the moment they arrive. With the encouragement of the highly qualified and experienced medical and nursing staff and the distinguished scientists, the patients are able to achieve the best possible health results for themselves.

Finally, it is worth mentioning that the OLYMPION General Clinic is certified with **ISO 9001: 2015**, for the quality of services but also for the excellent building infrastructure and state-of-the-art technological equipment.

**The "OLYMPION" General Clinic of Patra offers:**

- 200 beds in luxurious hotel infrastructure with panoramic mountain and sea views.
- State-of-the-art Intensive Care Unit (ICU).
- Emergency Department operating 24/7, 365 days.

### **The "OLYMPION" Rehabilitation and Recovery Centers**

The OLYMPION Rehabilitation and Recovery Centers in the cities of Patra, Ioannina, Thessaly and Chania, are modern, high-standard facilities, unique in Greece and among the most conclusive facilities in Europe. Their goal is the provision of holistic healthcare to every Greek, European and international citizen, by the highly experienced medical and scientific personnel.

The OLYMPION Rehabilitation and Recovery centers, offer In-patient and Out-patient treatment and provide patients transfer with special vehicles for the transfer of wheelchairs as well as fully equipped ambulances.

All the hospitalization wards are spacious and luxurious, close to the countryside, with electric remote-controlled beds of personal autonomy, personal phone, TV set, access to P/C and internet connection, as well as ultra modern nurses calling system. The bathrooms in all rooms provide special equipment for persons with mobility limitations.

The patients are evaluated by the Doctor of Physical Medicine and Rehabilitation, who designs a personalized conclusive rehabilitation program that may include Physiotherapy, Hydrotherapy, Ergotherapy, Speech therapy and Psychological support, with continuous medical surveillance and support in all structures of the Centers.

The specialized medical personnel, consists of doctors of all specialties: Psychiatrists, General Practitioners, Orthopedists, Neurologists, Cardiologists, Neurosurgeons but also other scientists: Psychologists, Physiotherapists, Dieticians, Ergotherapists, Speech therapists, Special teachers for children, social workers and nurses.

Within a supportive and dynamic care environment, the OLYMPION's rehabilitation team of experts offers advanced therapeutic methods with cutting-edge technologies, tailored to each patient's needs, according to their special condition.

The comprehensive care addresses the medical, physical and emotional challenges of the patients with brain injury, spinal cord injury, stroke, amputation, neurological disorders, orthopedic disorders and multiple injuries. More specifically, the OLYMPION Centers provide specialized rehabilitation and recovery services to individuals with motor and cognitive deficits (hemiplegia, severe hemiparesis, paraplegia, quadriplegia, severe quadriplegia and severe paralysis), which make it impossible to stand or walk or cause problems with swallowing, speech, communication, respiratory function, sphincter function, etc. and lead to difficulty in the self-service of the patient. The above deficits can be the result of various neurological diseases, orthopedic surgeries, neurosurgery, cardiac and other surgeries, multi-traumatic and respiratory diseases.

The Centers are contracted with Greek Social security funds and hold collaborations with the most well-known private insurances in order to be accessible to all patients in need to regain their functionality.

## The “OLYMPION” Dialysis Centers

Every patient with kidney disease should be able to live life to the fullest. The OLYMPION Dialysis Centers provide state-of-the-art facilities with the latest technology in various locations around the country, in order to facilitate the dialysis patients who travel to Greece.

The OLYMPION Dialysis Centers, modernly equipped, are located in the cities of Patra, Amaliada, Nafpaktos and Chania. All the OLYMPION Dialysis Centers combine high-end technology, provided by Baxter Company, specialized in high-end technical support for renal treatment, and experienced personnel. The Dialysis treatment options offered include hemodialysis and on-line hemodiafiltration.

The Nephrologists and the Administrative staff coordinate the patients' dialysis before and during their stay at the Center. The friendly teams of the OLYMPION Dialysis Centers are multilingual and take good care of the holiday patients' safety and comfort during their treatment.

The primary concern of the Centers is to make dialysis treatment as effective as possible with the guidance of a highly qualified and experienced staff, consisting of specialized Nephrologists and nurses.
